## Хетеротопии в Студентски град

"The Shiny Sexy", или случайна табела на случаен магазин в Студентски град, се превръща във вдъхновение за образа на квартала в София с най-младото население. Там, където от всяка стена наднича афиш за участие на чалга певец, където билбордовете на магазините ще те заслеят в разнообразие от цветове, където ще усетиш миризмата на джонер на всеки ъгъл в близост до нощните клубове. Но и където има детски градини срещу магазините за бельо, обществени перални до всяко общежитие, ледена пързалка срещу зеленчуковия пазар.

"The Shiny Sexy" изследва Студентски град чрез неговите хетеротопии - преплитането на функции в пространството прелита и пътищата на различни хора. Една разходка от дворец до дворец, която разкрива неочаквани съкровища, фантастични герои и техните истории.

# The Shiny Sexy

## Heterotopias in Student's Town

"The Shiny Sexy", or a random sign on a random shop in Studentski Grad, becomes an inspiration for the image of the neighborhood in Sofia with the youngest population. Where a poster for a chalga singer's participation peeks out from every wall, where the billboards of the shops will dazzle you with a variety of colors, where you will smell döner on every corner near the nightclubs. But also where there are kindergartens opposite the lingerie shops, public laundries next to every dormitory, an ice rink opposite the vegetable market.

"The Shiny Sexy" explores Student's Town through its heterotopias - the intertwining of functions in space also intertwines the paths of different people. A walk from palace to palace that reveals unexpected treasures, fantastical characters and their stories.

### The Street with the Bars

The most controversial street in the neighbourhood - loved by party goers, avoided and disliked by the rest. Sofia's Sunny Beach.

### The Children's Palace

An imaginary route starts with a place, coming out of a fairytale - who thought princesses and princes lived in Student's town?

### The Student's Park

A favourite place in the neighbourhood for different residents - young parents, students and older people. The best place to have a walk or just chill on a bench.

### The Turkish Cafe & Sunday

A place for meeting in daytime, for chess play and eating baklava. Another quiet place for sweets to drink your Sunday coffee and chill with friends. Loved by both young and old.

### Nurseries & Lapadundi

Just a regular fast food place in Student's town? No, a landmark and a meeting point everybody knows.

### Block 17 & 18

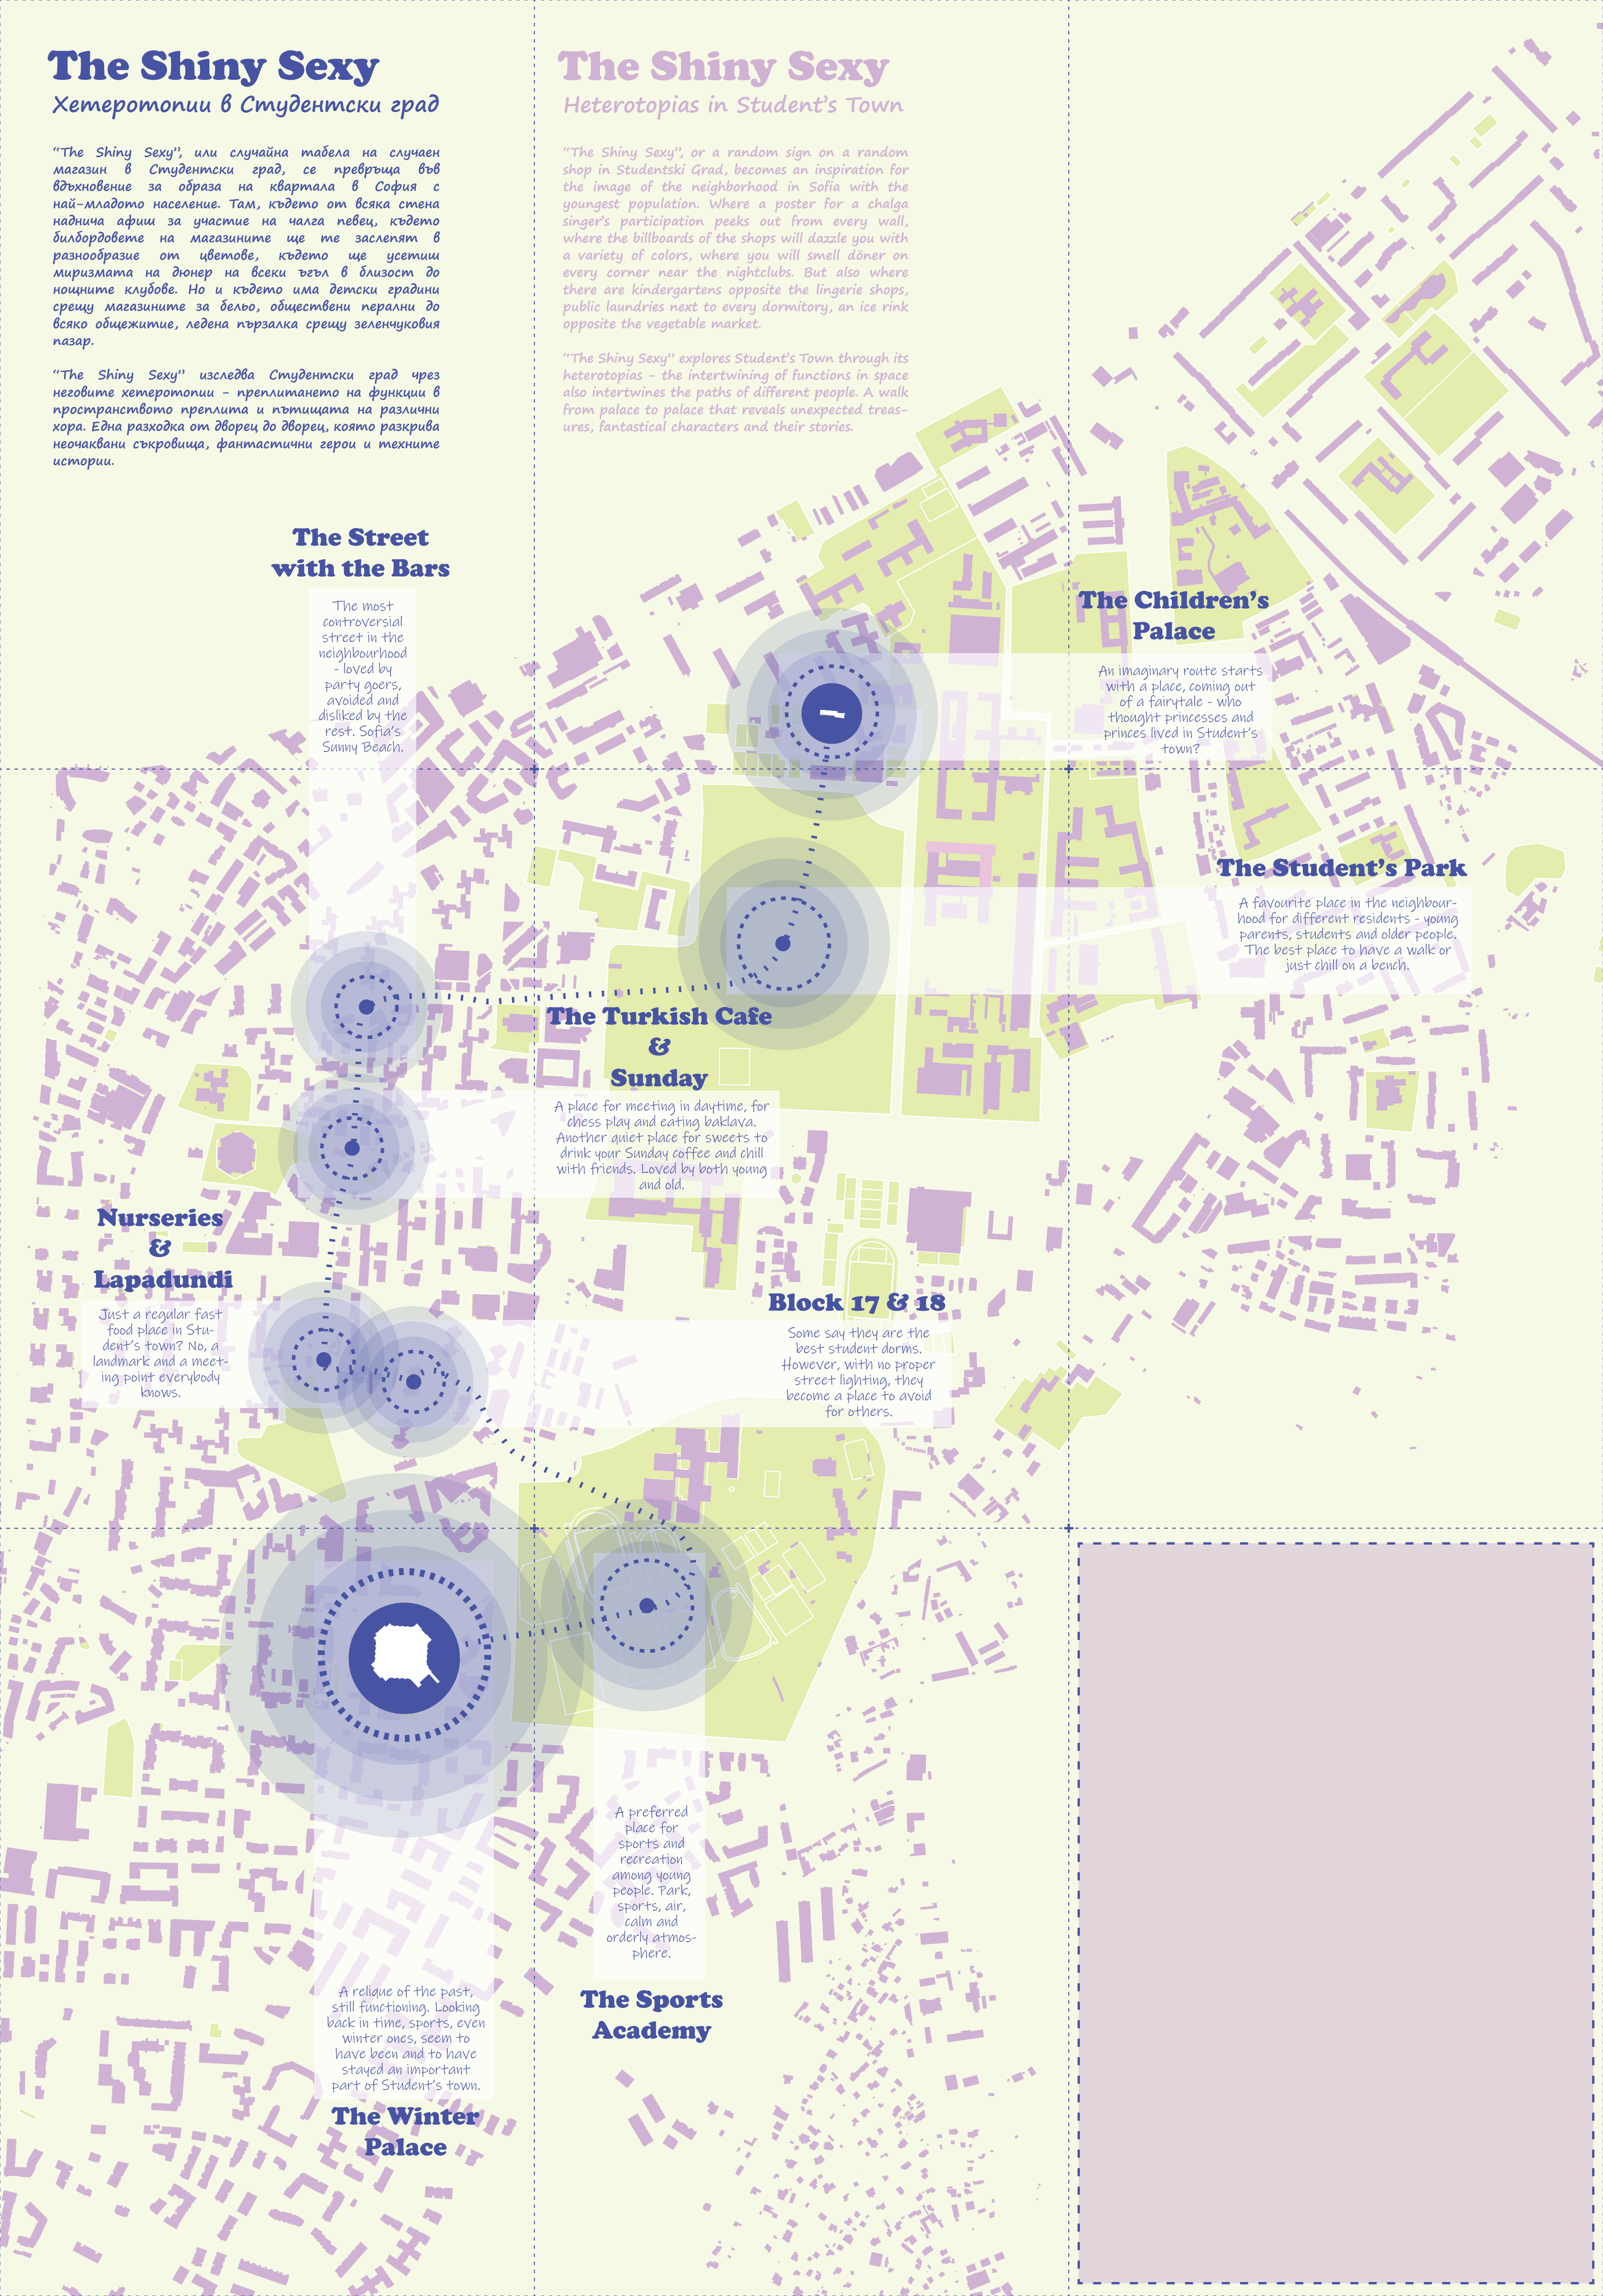

Some say they are the best student dorms. However, with no proper street lighting, they become a place to avoid for others.

A preferred place for sports and recreation among young people. Park, sports, air, calm and orderly atmosphere.

### The Sports Academy

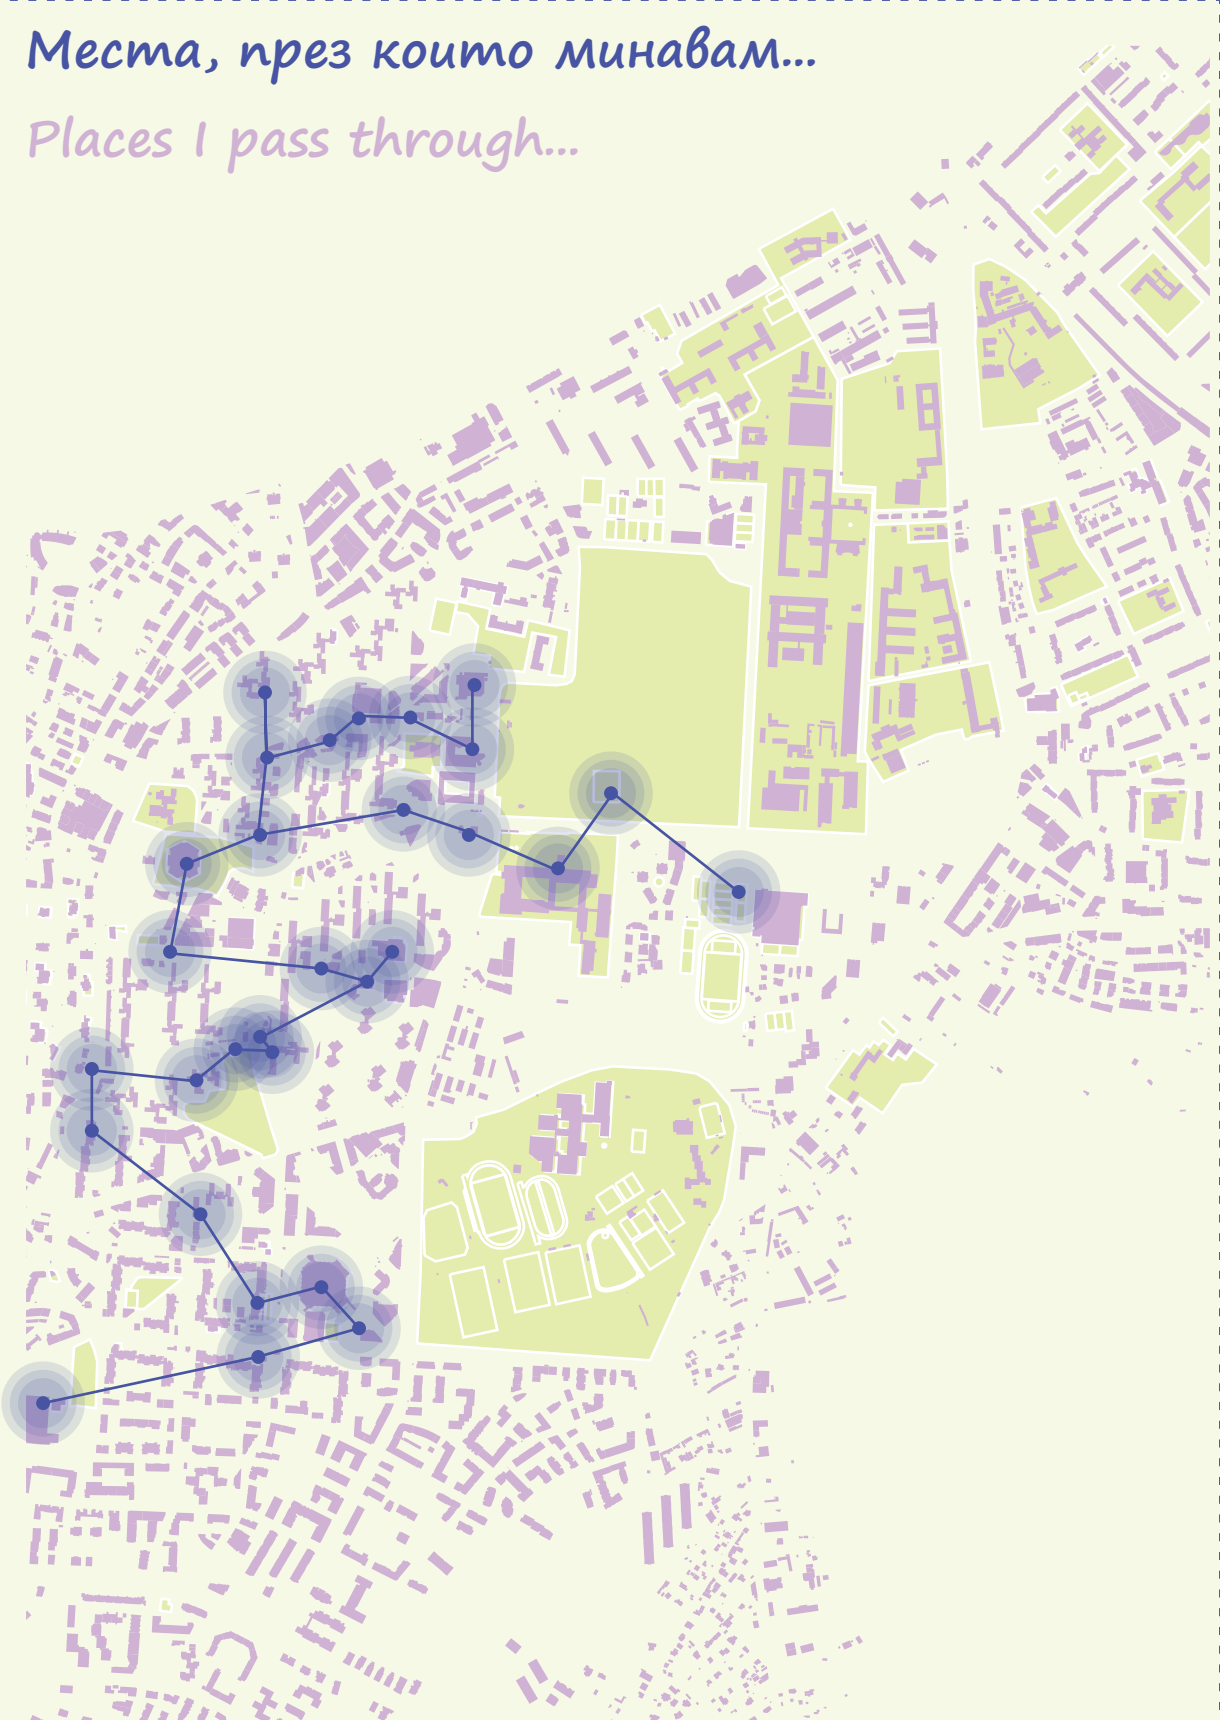

A relique of the past, still functioning. Looking back in time, sports, even winter ones, seem to have been and to have stayed an important part of Student's town.

### The Winter Palace

Места, през които минавам...

Places I pass through...

Места, които харесвам...

Places I like...

Места, които отбягвам...

Places I avoid...
